

MILLENNIUM PARKING GARAGES

- 9,176 parking spaces across four underground garages in downtown Chicago
- As a public asset, MPG is subject to and remains in compliance with stringent safety requirements imposed by numerous City departments – including fire, police and the office for people with disabilities
- Licensed ABC inspector on staff to perform annual safety and compliance inspections on oil tanks
- MPG negotiates with event planners and organizers for the facilities to act as an emergency shelter; DAS system has been installed to ensure underground connectivity, further improving safety
- Expansive ventilation systems ensures air quality standards are met
- Continual structural integrity assessments are performed
- Installation of LED lighting throughout the facility reduces carbon footprint
